PROTECT YOUR PLANET
ADOPT OR BUY BEES
TO SAVE THE BEES

We have set up 7 locations:

1. Sacramento, California
2. Los Angeles, California
3. Reno, Nevada
4. Chicago, Illinois
5. Portland, Oregon
6. Seattle, Washington
7. Jacksonville, Florida

[BACKGROUND](#)[ACHIEVEMENTS](#)

From the beginning we've been working to leave a positive impact on our planet. Over the last decade, members of our team have worked in commercial pollination to help produce **over 100 million pounds of food**, alongside income for people in the agricultural industry. But most importantly, throughout the last 5 years we have invested **over \$500,000 into bee research.**

INITIATIVES

We **raise awareness** on pollinators while advocating for more **bee research** and **environmental restoration**. Our goal is to create solutions that will **allow bee populations to remain sustainable indefinitely.**

Our Team

Founded in 2020 by beekeepers, researchers, scientists, and supporters with a goal of raising awareness on the current pollinator situation.

MISSION

We raise awareness on pollinators while each purchase contributes to **funding more bee research and environmental restoration**. Our goal is to create solutions that will allow bee populations to remain sustainable.

VISION

Save The Bees Foundat
501(3)(c) non-profit corporation
that organizes bee research,
environmental restoration projects,
and streamlines funding to other
organizations taking action to better
our bees and our environment.
